

Intelligent Energy  Europe

RERINA - Integration of Renewable Energy Technologies in Rural Insular Areas

EUROPEAN CONFERENCE

10 - 11 October 2007

“Diamant Conference and Business Centre” 80 Boulevard A. Reyers, B-1030 Brussels

The **RERINA** project and its project leader, the **Technical University of Crete, Environmental Engineering Department**, would like to invite you to a **European Event** which will **focus on Sustainable Energy Communities in islands and ecologically sensitive areas**. The event is co-funded by the **Intelligent Energy-Europe Programme** of the European Commission and is free of charge.

It will highlight:

- The potential for the implementation of the concept of **Sustainable Energy Communities (SEC)** in European islands and ecologically sensitive areas;
- The **socio-economic and environmental issues** that policy makers should consider in order to encourage the development of SEC

The registration will start at 18:00 on October 10th, 2007 followed by a reception-cocktail immediately after the closing of the ISLENET 2007 Conference which also takes place at the same venue on 9-10 October 2007.

The Conference Programme and other information on how to access the conference venue are available on the RERINA website www.rerina.net.

As space is limited, please confirm your attendance as soon as possible by filling in the registration form on www.rerina.net.
